CONTENTS

VOL. 19, NO. 1, FEBRUARY 1988

1 *Cecil Machena and Nils Kautsky:* A quantitative diving survey of benthic vegetation and fauna in Lake Kariba, a tropical man-made lake

15 *Peter Convey:* Competition for perches between larval damselflies: the influence of perch use on feeding efficiency, growth rate and predator avoidance

29 *Mona A. Mort and W. Charles Kerfoot:* Tropical zooplankton: phenotypic and spatial analyses of polymorphic *Ceriodaphnia cornuta* (Crustacea: Cladocera)

41 *D. T. Crisp:* Prediction, from temperature, of eyeing, hatching and 'swim-up' times for salmonid embryos

49 *Michael Jeffries:* Individual vulnerability to predation: the effect of alternative prey types

57 *G. Winfield Fairchild and Alan C. Everett:* Effects of nutrient (N, P, C) enrichment upon periphyton standing crop, species composition and primary production in an oligotrophic softwater lake

71 *Brian Woodlock and Julian D. Reynolds:* Laboratory breeding studies of freshwater crayfish, *Austropotamobius pallipes* (Lereboullet)

79 *Brian Woodlock and Julian D. Reynolds:* Reproduction in an Irish lake population of the crayfish *Austropotamobius pallipes* (Lereboullet)

87 *Laura G. Leff and Marilyn D. Bachmann:* Basis of selective predation by the aquatic larvae of the salamander, *Ambystoma tigrinum*

95 *Patricia Chow-Fraser and Edward J. Maly:* Aspects of mating, reproduction, and co-occurrence in three freshwater calanoid copepods

109 *Stanley I. Dodson:* Cyclomorphosis in *Daphnia galeata mendotae* Birge and *D. retrocurva* Forbes as a predator-induced response

115 *M. Robin Anderson and Jacob Kalff:* Submerged aquatic macrophyte biomass in relation to sediment characteristics in ten temperate lakes

123 *R. C. Hart:* Zooplankton feeding rates in relation to suspended sediment content: potential influences on community structure in a turbid reservoir

141 **Book Reviews; Short Notice**

VOL. 19, NO. 2, APRIL 1988

145 *L. G. Willoughby and R. G. Mappin:* The distribution of *Ephemerella ignita* (Ephemeroptera) in streams: the role of pH and food resources

157 *Kenneth Brown and Brian H. Strouse:* Relative vulnerability of six freshwater gastropods to the leech *Nephelopsis obscura* (Verrill)

167 *P. W. G. Daldorph and J. D. Thomas:* The chemical ecology of some British freshwater gastropod molluscs: behavioural responses to short chain carboxylic acids and maltose

179 *D. W. Sutcliffe and T. R. Carrick:* Alkalinity and pH of tarns and streams in the English Lake District (Cumbria)

191 *Robert L. Baker:* Effects of previous diet and frequency of feeding on development of larval damselflies

197 *C. P. McCahon and D. Pascoe:* Cadmium toxicity to the freshwater amphipod *Gammarus pulex* (L.) during the moult cycle

205 *Fumio Hayashi:* Life history variation in a dobsonfly, *Protohermes grandis* (Megaloptera: Corydalidae): effects of prey availability and temperature

217 *S. E. Metcalfe:* Modern diatom assemblages in Central Mexico: the role of water chemistry and other environmental factors as indicated by TWINSPAN and DECORANA

235 *A. Hargeby and R. C. Petersen, Jr:* Effects of low pH and humus on the survivorship, growth and feeding of *Gammarus pulex* (L.) (Amphipoda)

249 *Marianne V. Moore:* Differential use of food resources by the instars of *Chaoborus punctipennis*

269 *Göran Arnqvist:* Mate guarding and sperm displacement in the water strider *Gerris lateralis* Schumm. (Heteroptera: Gerridae)

275 *L. J. Stewart and D. G. George:* An *in situ* experimental column for the study of vertical migration in plankton

281 **Book Reviews; Short Notices**

VOL. 19, NO. 3, JUNE 1988

285 *Paula Kankaala:* The relative importance of algae and bacteria as food for *Daphnia longispina* (Cladocera) in a polyhumic lake

297 *Anne Garden and Ronald W. Davies:* Decay rates of autumn and spring leaf litter in a stream and effects on growth of a detritivore

305 *Thomas F. Cuffney:* Input, movement and exchange of organic matter within a subtropical coastal blackwater river–floodplain system

321 *Carl M. Way:* Seasonal allocation of energy to respiration, growth and reproduction in the freshwater clams, *Pisidium variabile* and *P. compressum* (Bivalvia: Pisidiidae)

333 *John H. R. Gee:* Population dynamics and morphometrics of *Gammarus pulex* L.: evidence of seasonal food limitation in a freshwater detritivore

345 *John Mark Hanson, William C. Mackay and E. E. Prepas:* The effects of water depth and density on the growth of a unionid clam

357 *R. I. Jones, K. Salonen and H. De Haan:* Phosphorus transformations in the epilimnion of humic lakes: abiotic interactions between dissolved humic materials and phosphate

371 *E. Tipping, J. Hilton and B. James:* Dissolved organic matter in Cumbrian lakes and streams

379 *C. S. Reynolds and J. W. G. Lund:* The phytoplankton of an enriched, soft-water lake subject to intermittent hydraulic flushing (Grasmere, English Lake District)

405 *R. Goulder:* Epilithic bacteria in an acid and a calcareous headstream

417 *J. A. A. R. Schuurkes and C. J. Kok: In vitro* studies on sulphate reduction and acidification in sediments of shallow soft water lakes

427 **Book Reviews; Announcement**

430 **Author Index to Volume 19**
